

NPCC 2025 Test Descriptions

SESSION 1 TESTS: 8:45-10:00 (unless noted)

Accounting Test **8:45-10:00** **Room 131**

1. No limit on participants per school
2. Grade levels: 11th-12th graders who have had or are currently taking accounting
3. Students should bring calculators

The multiple-choice exam covers the steps of the accounting cycle. Topics include journalizing, posting, preparing a trial balance and financial statements, adjusting accounts, recording closing entries, and using special journals to record transactions for a merchandising business.

Biological Science **8:45-10:00** **HASC Room 203, 204, 206**

1. Two students per school
2. Grade levels: 10th-12th graders who have had or are currently enrolled in Biology
3. Testing format: Multiple Choice

Students planning to take the Biological Sciences exam should expect a multiple-choice exam covering the basic concepts of Biology. A successful student in this exam would have a strong desire to pursue a career in biology related fields: i.e. medicine, nursing, bio-technology, laboratory technology, agricultural sciences and dental technology and have at least one year of HS Biology.

Chemistry **8:45-10:00** **HASC Room 202**

1. One student per school (space will be limited to the first 24 registrants)
2. Grade levels: 11th-12th graders who have had or are currently enrolled in chemistry
3. Testing format: Multiple Choice & demonstration
4. Students will need to bring a scientific calculator (**graphing calculators are not allowed**).

Students planning to take the Chemistry exam should expect a multiple-choice exam covering the basic concepts of Chemistry. A successful student in this exam would have a strong desire to pursue a career in chemistry related fields. In addition to the test there will be a few demonstrations performed for students.

Dramatic Arts / Theater **8:45-10:00** **Theater**

1. Limit of two students per school
2. Grade levels: 9th-10th
3. Students should bring prepared dramatic work 3-5 minutes in length

Students planning to participate in the Dramatic Arts Competition must be prepared to present a 3-5 minute dramatic work for an audience (performers will be stopped at the five minute mark of the presentation). The presentation can be a monologue from a dramatic work, a cutting from a literature piece, or works of poetry (***a monologue is preferred!***). This presentation must be a solo performance that **must** be memorized. The dramatic presentation will be judged by a panel led by NPCC Theatre instructor Ritch Galvan. Judges will be evaluating; Character, Voice, and Movement. Awards will be given to top three performers.

Graphic Design **8:45-10:00** **Room 133**

1. One student per school (limited to 10 testers, the first 10 entries will be given priority)
2. Grade levels: 11th - 12th
3. The test will include three parts: a quiz, a computer exercise, and a logo sketch

Students taking the Graphic Design exam would benefit from some design background. A student can expect success in this exam if they enjoy working on the computer, have great ideas, and a good eye for detail.

Health Occupations**8:45-10:00****HASC Room 102 & 103**

1. Two students per school
2. Grade levels: 11th-12th graders considering a career in health occupations
3. Testing format: Multiple Choice
4. Presentation: Career exploration of health related careers including Emergency Medical Services, Dental Assisting, Medical Laboratory Technician, and Nursing

Are you interested in a career in Health Occupations? Do you thrive on challenges and responsibilities? Do you have a high standard for yourself and expect quality in the work you produce? Then any one of our exciting Health Occupations careers is where you belong. Maybe it is working in a dental office assisting dentists as a Dental Assistant. Or would you rather work in a lab as a detective that hunts for clues to determine what is going on with your patient as a Medical Laboratory Technician. You might want to help people in their time of need in an emergency as an Emergency Medical Technician. Or maybe you want to take care of patients in a variety of settings as a nurse (we have Nursing Assistant and Medication Aide courses along with Licensed Practical Nursing and Registered Nursing programs available). Whatever Health Occupations area you want to explore we are here to help. During Inter-High Day you can take a test with us that will cover topics of general biology and sciences as they relate to the field of health. When you are finished testing you can check out our booth to learn more about our health occupations programs, and then come and explore some of the exciting things that you can do in any of these Health Care fields.

Information Technology**8:45-10:00****Room 128**

1. One student per school (space will be limited to the first 20 registrants)
2. Grade levels: 11th-12th graders with computer knowledge or interest in a career in Information Technology or related fields
3. Testing format: Multiple Choice, True/False, Matching

The Information Technology exam will cover basic concepts of computer hardware, operating systems, networking, and security. Students will be successful if they are computer savvy and have a strong desire to engage in computer related activities.

Mathematics**8:45-10:00****HASC Room 125, 126**

1. Two students per school
2. Grade levels: Preference should be given to Seniors that are currently enrolled in College Algebra, Trigonometry, or Pre-Calculus
3. Testing format: Multiple Choice and brief presentation

Permitted calculators for the ACT or other standardized exams are allowed; however, smart phones or other digital devices are not allowed.

Music**9:00-10:00****Room 115**

1. Grade levels: 10th -12th graders who plan to attend NPCC or have yet to decide on a post-high school institution
2. Rhythm Quest: The Ultimate Sight-Reading Game 🎵 🔥 Bring your energy and enthusiasm – this will be a fast-paced, fun-filled hour of rhythm and music!

EXTENDED SESSIONS :

TESTERS SHOULD NOT REGISTER FOR OTHER TESTS.

Art **8:45-11:30** **Room 135, 137**

1. Two students per school. Students should not register for other exams
2. Grade levels: 11th-12th graders with at least two years of high school art or a strong desire in pursuing a career in an art related field
3. Part 1: Test covering terms and concepts used in the field of visual communications
Part 2: Performance (drawing) test
4. Students should bring a minimum of two pencils and erasers

Students planning to pursue the visual arts should sign up for this test and performance. The test will encompass terms and concepts used in the field of visual communication. A second assessment will be conducted in the manner of performance (drawing) test.

Criminal Justice **8:45 – 11:25** **Room 122/124**

1. Three students per school - limited to first 24 students
2. Grade levels: 9th-12th
3. Testing format: Hands-on interactive crime scene investigation, interactive lecture on criminal justice fundamentals and career possibilities, examination and discussion

Open to students who have an interest in criminology or the criminal justice field. Future careers may include police officer, sheriff, secret service, lawyer, probation officer, border control agent, U.S. Marshal, victims advocate, correctional officer, fire investigator, court clerk, etc. Students should expect to split their time between a hands-on crime scene investigation, an interactive lecture and examination focusing on fundamental concepts within the criminal justice field as well as exploration of career possibilities. The morning will conclude with an interactive discussion with MPCC criminal justice instructors where students can ask questions and debrief from the morning's events. Winners will be selected based on results from the examination and the accuracy of their crime scene investigation. The material presented will include mock crime scenes and may include depictions of blood, but no injured persons. Students who may be uncomfortable with photos or depictions of crime scenes should avoid this session.
